PROFILE

As a student in Electrical, Electronics, and Automation Engineering (3EA) at ENSEEIHT, with a background in technical studies and hands-on experience, I am passionate about the design, prototyping, and optimization of embedded systems. During my R&D internship, I strengthened my knowledge in signal integrity, hardware validation, and automation. I am now seeking an innovative and collaborative environment where I can contribute to technological advancement.

PERSONAL EXPERIENCE

Associative commitment

- Scouting | Over 10 years of involvement
Leadership, project management, and teamwork.

Music :

- VIOLON | 8 years of conservatory practice
Discipline and attention to detail.

Sports :

- Sailing | Hobie Cat (FFV level 3), crewed navigation (Glénans).
Crisis management and adaptability.
- Freeride Skiing
Decision-making and responsibility in dynamic environments

SOFTWARE SKILLS

Première Pro	● ● ● ● ●
PowerPoint / Keynote	● ● ● ● ●
Word / Pages	● ● ● ● ●
Cura	● ● ● ● ●
Lychee Slicer	● ● ● ● ●
Photoshop	● ● ● ● ●
Fusion360	● ● ● ● ●
Solidworks	● ● ● ● ●

LANGUAGES

- ✓ French: Native language
- ✓ English: B2 level
- ✓ Spanish: B1 level

FORMATION

2028 Toulouse	Engineering Degree ENSEEIH – 3EA Major: Electronics, Electrical Energy, and Automation
2025 Rennes	Advanced Technical Preparatory Program Lycée Joliot Curie Industrial Engineering, advanced courses in Mathematics, Physics, and Engineering Sciences
2021-2024 Orsay	Diplôme Universitaire de Technologie University of Paris-Saclay (IUT d'Orsay) Major in Instrumentation Technology. Supervised project: Design and creation of a current clamp

PROFESSIONAL EXPERIENCE

Du 08/04/2024 Au 10/06/2024 11 semaines (Paris-75)	DECYBEN (McKay Brothers) R&D Laboratory Intern Testing and validation of an RF power supply board prototype: electrical measurements, performance analysis, and troubleshooting. Design optimization (I2C, eFuses, Hot Swap Controllers) and signal integrity verification. Developed and deployed an automated production test bench using LabVIEW, trained operators, and implemented automated reporting for traceability. Tools: LabVIEW, ODB++, oscilloscope, electronic loads, precision instrumentation.
Du 01/09/2020 A ce jour (Savigny-sur-Orge-91)	SCOUTS DE FRANCE (groupe St Martin) Technical Manager Sound engineering for large-scale events with thousands of attendees. Mastery of Behringer X32 console, Dante network environment, digital processors, and line array systems.
Du 29/10/2018 Au 30/06/2023 (Montrouge-92)	BOUVET FRERES MARINE SAS Prototype Project Manager Intern Procurement analysis, IT infrastructure setup and management for the design and communication office. Supervised additive manufacturing (3D printing), including slicer preparation, machine maintenance, and process optimization. Worked on electronic and optical systems (lighting and signaling) for prototype development (VNM).
